Quick-Start: How to Create Turnitin Assignments - Assignments with Plagiarism Checker and Assignments Graded in Turnitin

> **NOTE:** If you are moving your content from Blackboard to Canvas, your Turnitin Assignments will not transfer through the Export/Import Process, and will need to be recreated in Canvas.

By default Turnitin is activated in all Canvas courses. There are two methods to use the Turnitin tool:

- Assignments with plagiarism checker
- Assignments that will be graded online in Turnitin framework in Canvas

> **NOTE:** If you would like to use PeerMark or Revision assignments and prefer to use Turnitin Feedback studio for markup and grading, the second method would be the preferred approach.

Creating an Assignment that Utilizes Turnitin Plagiarism Checker

1. In **Course Navigation**, click **Assignments**.

2. Click "+**Assignment**" (top right).

3. After adding the assignment title, instructions, points, and other details, in **Submission Type** option, select **Online** submission and Online Entry Options: **Text Entry** and/or **File Upload.**.
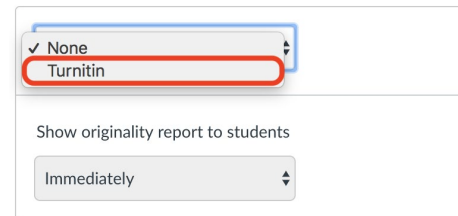

4. In **Plagiarism Review** drop-down menu, select **Turnitin**.

5. Configure the settings options for the Turnitin plagiarism checker based on your preferences.

6. Configure the rest of the assignment options (Group Assignment, Peer Review, Due Dates) and click **Save & Publish** or **Save** at the bottom. *(You have to publish assignments to make them available to students.)*
